The Surprisingly Low Price of Goodyear Balloons

YOU are probably using one of the following popular sizes of straight-side, high-pressure tires—31x4, 32x4, 33x4, 32x4^{1/2}, 33x4^{1/2}, 34x4^{1/2}, 33x5.

A year ago to-day you were able to buy these sizes of Goodyear Tires at the lowest prices in the history of the automobile business.

To-day you can buy Goodyear Balloon Tires to fit the same wheels for even less money.

Just think—Balloon Tire comfort. Balloon Tire saving on you and your car, Gsodycar quality —for less than you paid a year ago for high pressure tires requiring lots of air.

Goodyear quality increased by the invention of SUPERTWIST, the superior new Goodycar Cord Fabric.

See the Goodyear Selected Dealer regarding a pair or a set of Balloon Tires for your car. Goodyear makes Balloon Tires to fit six sixes of wheels—the wheels now on your car, or new smaller wheels if you prefer their appearance or if you need them for fender elearance.

Men Who Know Gas Engines Insist on Columbias

There is no time in the rush of harvest to tinker with hit or miss batteries. The surest way to keep the engine running smoothly is to use Columbia "Hot Shot" dry batteries to supply millions of bot, fat sparks, that wring the last ounce of power out of the grasoline. For all weather exposure use the steel case "Hot Shot" - three, four or five batteries in a water-proof case. Easy to connectjust two binding posts for jonition wires. Columbia Dry Batteries give a long life of dependable service.

Columbia Dry Batteries are sold by electrical hardware. radio and auto accessory shops, marine supply dealers, implement dealers, garages and general stores.
